City Council Message  
from Brett Garlock

Summer is past, school is back in session and fall is upon us. As I attend my children's soccer games, it continues to overwhelm me: 1) what a great Parks and Recreation Department we have, and 2) what great volunteers we have to create such an amazing place to live.

I have been working closely with the Parks and Recreation Department for many months and my expectations are continually exceeded as I watch this great group of city employees work. I have attended nearly every civic event in the past year and this dedicated group of employees is always there either in front taking charge, or supporting from the back. Day, night, weekends, it doesn't seem to matter - they are always there. We should feel proud that we have such a great group of individuals serving our needs and helping to make our city the best.

The City Council received a report that there were approximately 32,000 volunteer hours donated by citizens each year here in Kaysville. Using the census statistics on Utah's average household income, that equates to over $877,000 donated by citizens each year! The 4th of July events, movies in the park, New Year's Eve, Easter Egg Hunt, Monster Mash & Dash Festival, Christmas Parade, soccer, football, basketball - the list goes on and on. It is no wonder that Kaysville is such a desirable place to live and raise a family. Many thanks to those who volunteer so readily and graciously!

I love living in Kaysville. I grew up here and there is no other place I would want to raise my family. We all appreciate the friendly and cooperative environment, the great service that is rendered to each other continually, and the generally positive and uplifting nature of our citizens toward each other. Thank you all for making Kaysville the best place to live, anywhere!

Kaysville City General Plan Update

A public hearing will be held on October 23, 2014 at 7:00 p.m. at City Hall to receive comments on proposed changes to the Kaysville City General Plan. All interested persons are welcome to attend and make comment. A copy of the General Plan can be obtained at www.kaysvillecity.com.

Overnight Parking Restrictions

Vehicles are prohibited from parking on City streets from November 1 to March 1 between 12:00 midnight to 6:00 a.m. The Police Department will place a citation on any vehicle parked on the streets during that time regardless of whether or not it snows. Parking fees are $15.

Please keep all vehicles off the street when snow is possible so snowplows can do an effective job. As soon as your garbage has been collected, please remove cans from the street to help facilitate snow removal.
Armed Forces Recognition Day

On November 9 we will honor our Veterans, worthy men and women who gave their best when they were called upon to serve and protect their country. We invite all Kaysville Veterans and their partners to attend a free program and lunch at 11:00 a.m. at Davis High School. We respect our Veterans, we thank them, we honor them, and we are proud of them. Please join us as we thank you for the hardships you faced and the sacrifices you made.

Wade Flint Retires

Wade Flint, the City Zoning Administrator/Code Enforcement Officer, retired in September. Wade began his career with Kaysville City in 1990 as a Maintenance Worker in the Public Works Department. He was soon promoted to Zoning Administrator/Code Enforcement Officer. Wade has a fun personality and always has a positive attitude, a friendly smile, and a contagious laugh. We appreciate all the hard work Wade did for Kaysville City. We will miss seeing him around town.

Autumn Leaves

Autumn is the time of year when City crews work hard to keep storm drains clear of falling leaves. Leaves in street gutters can clog storm drains, potentially causing flooding of neighborhood streets. Your help with prompt removal of fallen leaves is appreciated. Potential flooding will be reduced, pollution to local creeks will be prevented, and public/environmental health will be increased. Storm drains flow directly to local creeks and rivers and then into lakes and oceans. If leaves build up in underground catch basins, a poisonous gas (hydrogen sulfide) can occur. This can deplete the oxygen in creeks and streams where fish live and can be dangerous to workers during their efforts to unclog storm drains. Please do not blow or rake leaves from your yard into the street. Place them in your black or green garbage can.

Christmas Light Parade

Our annual Christmas Light Parade will take place on Monday, December 2. Lighting of the City Block and the star on the mountain will take place at 5:45 p.m.

The parade begins at 6:00 p.m. and will travel from 500 South Main to 100 North Main. Visit www.kaysvillecity.com or www.clipptoday.com for parade entry forms.

Electric Light

4th Annual Monster Mash and Dash

Saturday - October 11
5:00 to 8:30 p.m.
Heritage Park (250 North Fairfield Road)

Come build a scarecrow, paint a pumpkin, and enjoy the entertainment, including award-winning hypnotist, Mont Dutson. Local food trucks will be there throughout the evening. Pre-register for the 5k race at www.runnercard.com for only $10 per runner which includes a t-shirt. Registration for the 5k increases to $20 on race day and a t-shirt is not guaranteed for late registers.

5:00 p.m. Scarecrow building begins
5:00-5:45 p.m. 5k on-site registration ($20 per runner)
5:15 p.m. Zombie Dash (8 years and under)
5:30 p.m. Entertainment begins
5:30-7:30 p.m. Children’s games and pumpkin painting
5:30-7:30 p.m. Storytelling in Bowman’s Pavilion
6:00 p.m. 5k race
6:15 p.m. Scarecrow and pumpkin judging
6:30 p.m. Pie eating contest
7:00 p.m. Awards
7:15 p.m. Hypnotist Mont Dutson
Get Ready For Snow

Kaysville City uses a variety of procedures to remove snow and control ice in the streets depending upon the type and amount of snowfall and temperatures. Weather conditions, temperatures, and storms are closely monitored and response is fitted to each storm. Snow will be removed from every public street as rapidly as City resources allow. Salt is used when it will be effective in lowering the freeze temperature. Snow is removed from higher use streets first, followed by residential streets as rapidly as can be done safely. Our goal is to remove snow from all streets within 24 hours after a snowstorm. Removal may be delayed if snow continues to fall because crews will return to major streets to remove additional snow. Many of the City's snowplow trucks are older and hydraulics for both the spreader and the plow cannot be used at the same time. Therefore, we often salt and then plow. Plowing often results in piles of snow being placed on the curb and across driveways. At times, sidewalks that are close to the street may also be piled with snow. In order to move quickly through the City, this is often unavoidable. We appreciate your patience and understanding. Thank you for your efforts in helping us better serve you. Below are some tips to ensure a successful season:

- Avoid parking cars on the street when you need to remove snow. It is important to clear as much snow from the streets as possible before it freezes.
- Give snowplows plenty of room. They can slide too. If you can, stay off the streets while they are working.
- When you remove snow, place it where it will not be in the street or need to be moved again.
- Bring garbage cans in as soon as possible and remove any other obstructions from the street.
- Keep obstructions (cars, garbage cans) away from mailboxes so snowplows can get as close to the curb as possible.
- Trim street trees so snowplows can get close to the curb.
- If a fire hydrant is located near your property, please remove the snow around it so it can be readily used if needed for firefighting.
- Clean snow off sidewalks as soon as you can.

Ski/Snowboard Registration

For those who enjoy the best snow on earth, it's never too early to start thinking about skiing and snowboarding. The Brighton and Snowbird Ski and Snowboarding session are always popular. These classes make great Christmas gifts but beware - classes fill up quickly. Register online at www.kaysvillerec.com. All sessions include transportation, lift ticket, lesson with professional instructor, and free ski time. For more information, contact the Recreation Center at 801-544-1788.

Basketball Registration

Basketball registration is going on now and ends on October 17. Register at the Recreation Office (85 North 100 East) or online at www.kaysvillerec.com. Kindergarten basketballers will begin their season in November along with preschoolers through 2nd graders. Third through 12th graders will begin their season in January. Games are scheduled at area schools.

Boys and girls can warm up for Jr. Dart league play in a pre-season skills clinic put on by Davis High School. All clinics are divided by grade levels and gender. Each two hour session includes drills and instruction in basketball offense and defense fundamentals. Clinic training includes scrimmage sessions, demonstrations, group and individual drills. Held at DHS on November 14 at 10:00 a.m. Cost is $10.

Tree Trimming

Trees planted in park strips (the area between the curb and sidewalk) become a safety and nuisance problem when they mature. If you have trees planted in your park strip, please keep them trimmed. Snowplows, dump trucks, garbage trucks, and street sweepers cannot get close to the curb when tree limbs extend into the street. Our trucks need a height clearance of 15' from the back of the curb. Limbs taller than 15' do not need to be trimmed. The Public Works Department will be trimming street trees this fall. If you are particular about how your trees are trimmed, please do the trimming yourself before our crews begin that process.
