Introducing the KAYSVILLE CITY HISTORIC PRESERVATION COMMITTEE
by City Councilmember Michelle Barber

Kaysville has a rich heritage of history and art. In an effort to better care for the city’s cultural resources, Kaysville City Historic Preservation Committee has been formed. Its members include: Brittany Bremer, Rob Dansie, Mark Johnson, Judy Rigby, and Elizabeth Heath, with City Councilmember Michelle Barber and Mayor Witt advising.

As a committee we hope to be a resource to the city in the documentation and celebration of our historic spaces, events, and community members. We look forward to coordinating with city departments, community organizations, businesses, and private citizens as we plan, protect, and celebrate Kaysville’s heritage. This committee shall recommend necessary and desirable protection of historic areas and sites within the community.

The Kaysville Historic Committee is inviting the community to the first annual Cemetery Fall Tour at the Kaysville City Cemetery (500 East Crestwood Drive). Come learn about one of Kaysville’s most beautiful and historic places. There will be a short historical orientation of the cemetery and chance to visit unique headstones and learn about historical figures in Kaysville. Enjoy activities for kids. Light refreshments will be served.

CEMETERY FALL TOUR
October 19
4–5:00 pm
A Season of CONSTRUCTION PROJECTS Is Wrapping Up
a message from Kaysville Public Works

As summer warmth has started to give way to fall leaves and preparations for Halloween, many city construction projects are also wrapping up. With street/water/storm water projects on Shepard Lane, 300 East, Sunset Drive, Schick Lane, Millcreek Lane, 900 West, Deseret Drive, Country Mill Drive, Main Street, 50 West and Angel Street, plus the gas company’s work on 400 West/Old Mill Lane and UDOT’s looming work on US-89 and I-15, this has been a very busy construction season. While these projects have brought needed improvement and repair to various areas and utility services, they also brought with them dust, noise, delays and detours on a scale that probably hasn’t been seen in Kaysville in quite some time. To say the least, these projects have been impactful and difficult for residents and businesses. As traffic begins to traverse new roadways and areas that had previously been closed, please be mindful and respectful of other motorists, pedestrians and residents by obeying speed limits and adjusting to surrounding conditions. We want to say thank you for your patience and for enduring some of these difficulties. We hope that these projects will ultimately serve to enhance the future quality of community life for Kaysville residents and businesses.

Kaysville City: A Connected City With BETTER SERVICE AT HOME For Less Cost

Thank you to Kaysville residents for being involved over the past year as we have explored our Kaysville Fiber project. Over 750 cities around the country have completed municipal fiber projects because these projects bring a great opportunity for essential data connectivity to city operations, residents and businesses.

THE PROCESS
As we have researched the need for high-speed broadband throughout our city, fiber technology has been selected because it is reliable, serves as a backbone for future technologies, and has nearly unlimited capacity. Throughout this process, we have engaged with residents, listened to concerns, and worked together to find what is best for our city.

RESPONDING TO FEEDBACK
We are listening to feedback from residents and making accommodations for every situation and need in Kaysville.

STAY INFORMED
Communication will continue to be shared throughout this process on the ConnectKaysville.com website where you can contact us with additional questions.

CITY COUNCIL ELECTION 2019

This general election, Kaysville citizens will vote to fill four city council positions:

- 3 four-year seats (January 2020-January 2024)
- 1 two-year seat (January 2020-January 2022)

City council candidates are pictured below (in alphabetical order by last name) along with their unedited campaign statements.

4–YEAR CANDIDATES

**John Swan Adams**

My name is John Swan Adams and I am thrilled to be running for Kaysville City Council! If elected, I promise to do the following: improve community relations, invest the time necessary to make informed and unbiased decisions, listen to all sides of every issue and be responsible with taxpayer funds as we improve the city.

Through cooperation and good communication, I know we can work together to better unite our community. I love this city and I WILL represent YOUR values and YOUR voice in our joint effort to maintain and build upon all that makes our city great!

**Mike Blackham**

I deeply care about Kaysville City and have a strong desire to maintain the quality of life and safety we now enjoy. After almost 34 years of service, I have recently retired from Kaysville City as the Building Official as well as the Kaysville Fire Department and currently serve as the Kaysville representative to the Mosquito Abatement Board. Serving in these capacities has given me the experience to represent the residents of Kaysville with a true knowledge of the past and a clear direction of the future of Kaysville City.

**Stroh L. DeCaire**

I have served Kaysville in numerous ways since moving here 12 years ago. For 11 years I have been the Chairman of our largest civic event, the Kaysville 4th of July Parade. I served on Kaysville City’s Planning Commission for nearly 6 years, and have been serving on our City Council working on numerous high profile projects. I am committed to continue my service to all 32,000 residents, transparently and honestly, for the next 4 years. Being a public servant is a humbling and amazing experience, I couldn’t ask to live and serve in a better place than Utah’s Hometown.

**Tim Allen Hodges**

Growing up in a small town in Texas as a fifth generation farmer, I know the value of community. After leaving the farm I eventually became a Marine and attended Park University, graduating magna cum laude. Post Marines, I attended Minnesota Law School. I settled in Kaysville with my family because we fell in love with the beautiful, vibrant city. I now work as a transactional attorney for the State of Utah, negotiating multi-million dollar contracts. I hope to bring my experience and procurement knowledge to the council, helping Kaysville citizens get the most of their tax dollars.

**Brett Tarbox**

I was raised on Davis County water in Bountiful, Utah. I am an alumnus of Bountiful High School, University of Utah, and University of Arizona. I am a husband and father of four. I work for University of Utah Health as an IT Manager. I am running for Kaysville City Council because I am a resident like you who cares about what happens to our community. I would like to build bridges, to collaborate, find compromise, and bring about positive progress. I am running because I am motivated to change or shift the dialogue, so we are working as neighbors.

**Tamara (Tami) Tran**

I bring experience, leadership and relationships to the city council, this is what makes me stand out and why I can hit the ground running. I'm a successful business owner. I have many employees and I'm responsible for millions of dollars in federal contracts. With my leadership our companies have exceeded our expectations. I currently serve as a Planning Commissioner. I'm articulate and decisive under pressure as I cast votes and interact within the community. My husband and I moved to Kaysville 25 years ago we've raised our family here and can't imagine living anywhere else. I hope to earn your VOTE.
My goal is to give my time and energies to the citizens of Kaysville to work on getting the city out of debt and return our local government to the “Proper Role of Government”. We are only truly free when we are not limited by the shackles of debt. My principles are 1) Protecting the personal and property rights of the individual and 2) Maximizing personal responsibilities. We cannot regain our community if the community isn’t directly involved and we continue to support more and more government programs and control. I love liberty and America, but it has to start here.

We love living in Kaysville. Our family has been in Kaysville for 12 years. I have 25 years of business experience working in healthcare and retail. The lessons I have learned in business are very relevant to serving in the city. I have been able to find ways to consistently improve companies and do more with less. I will bring this experience from past successes to help Kaysville City improve how it operates. I want to give back to Kaysville and to keep it the best Hometown in Utah. Find more information at www.andre4kaysville.com.

The Kaysville City Strategic Plan, which is currently underway, seeks to identify the city’s direction in response to its changing environment and conditions. Following is an update and common themes that have come from the process:

**KAYSVILLE IS:**
- A quiet bedroom community with minimal traffic and good schools.
- Growing, but still feels like a small town.
- A safe place with people who love living here.

**THE CITY SHOULD:**
- Provide services such as police and fire.
- Build and maintain necessary infrastructure.
- Continue to maintain public parks and preserve more open space.

**I WISH:**
- There were more events and opportunities to be involved.
- There were more diverse housing options throughout the community.
- Kaysville had a better sense of place.

Important to the process is input from Kaysville residents. Watch for an online survey coming this month, available at www.kaysvillecity.com/741/Strategic-Plan.

**QUESTIONS WILL INCLUDE:**
- What infrastructure improvements would you recommend for the future?
- “Recreation and Environment” scored high in a recent poll, based on what is important to residents as they plan for the future. What does “recreation and the environment” mean to you?
- How can we improve our “sense of place”?

There will be an open house this month to present the Kaysville Mission and Vision and to get citizen feedback. Date and time will be announced in the coming weeks.

Results of the July 4th and September Stroll Kaysville Polling are available at www.kaysvillecity.com/741/Strategic-Plan. Thanks to residents who have participated in the process.
As the days get shorter, the temperatures begin to drop, and the leaves start to turn colors, it ushers in not only autumn, but the return of thousands of students to school across Kaysville. Along with those backpack-toting children are crossing guards, school zones, and buses—things we haven’t seen for a few months. While Kaysville has worked extensively on creating safe walking routes, unfortunately, there are still areas where they’re absent. There are a lot of factors to completing these routes; however, our public works department is mindful and is tirelessly working on implementing solutions throughout the city. A reminder from our police department — slow down and pay attention while driving through school zones, obey crossing guards, and give yourself a little extra time to deal with the congestion and traffic. With that in mind, let’s have a safe school year and welcome in autumn with open arms. As always, you can reach me at 801.589.1151 or councilmember.decaire@kaysvillecity.com if you have any questions or concerns.

BACK TO SCHOOL
by City Councilmember Stroh DeCaire
