

Thank You for Participating in the **Green Waste** Program!

Green waste recycling is a voluntary program for curbside collection of green yard waste.

Pickup will be **WEEKLY** on your normal garbage day.
Cost will be \$6.50 per month.

During the winter months (Dec 1 to March 31) this green waste container may be used for regular household waste.

If you have any questions, please contact Kaysville City Hall at 801-546-1235.

Why Participate and What?

Green waste materials are relatively clean, biodegradable, and unnecessarily taking up space in landfills. Recycling yard trimmings will improve the performance of the Wasatch Integrated Waste Management Energy Recovery Facility and will help extend the life of the landfill up to 20 years.

Acceptable Items

DO NOT BAG ACCEPTABLE ITEMS
