## POLICE DEPARTMENT

SOLOMON H. OBERG  
CHIEF OF POLICE

### **FOR IMMEDIATE RELEASE**

February 1, 2017

### **Fraud Investigation Involving Michaelson Land Management**

The Kaysville Police Department has fielded several complaints of theft/fraud involving Michaelson Land Management. The victims all report that they had agreed to a snow removal contract with Michaelson Land Management. It was reported that this company had offices in Ogden.

The transactions were completed with cash payments made directly to a representative of Michaelson Land Management. The representative of this company would then hire a third party subcontractor to fulfill the contract. The subcontractor would complete the snow removal service and never receive payment from Michaelson Land Management. Victims have also reported to never receiving snow removal services after making the cash payments.

There have been multiple attempts to contact representatives of this company. Thus far, we have been unable reach this company. Through our investigation, we have learned that Layton, Syracuse, and the Ogden Police Departments have also fielded complaints with this same company. The Better Business Bureau is also aware of the complaints involving Michaelson Land Management.

Any person or company with a similar complaint is encouraged to contact their local police department and file a report. If you are contacted by a representative of this company, we would also encourage you to contact your local police department as soon as possible.
